Sea Otter Classic Bicycle and Electric Vehicle Policy

Effective Date: October, 14, 2026

Purpose. Life Time, Inc. ("Life Time") is committed to the safety of all attendees, exhibitors, volunteers, and staff at the Sea Otter Classic. This Policy establishes rules governing the use of electric bicycles ("BICYCLEs") and electric motorcycles at the event to promote safe riding, reduce the risk of injury, and ensure compliance with applicable California law. By entering the Event Grounds with a BICYCLE or electric motorcycle, each attendee agrees to abide by the terms of this Policy.

1. **Definitions.** For purposes of this Policy, the following definitions apply:
    a. **"BICYCLE"** means a bicycle equipped with fully operable pedals and/or electric motor of not more than 750 watts, as defined in California Vehicle Code § 312.5. A vehicle that has been modified to exceed 20 mph on motor power alone, to exceed 750 watts, or to remove operable pedals is not a BICYCLE and is prohibited on the Event Grounds (Cal. Veh. Code § 312.5(d)).

    b. **"Expo Area"** means the designated exhibitor exposition area of the Sea Otter Classic, including all vendor booths, walkways, and common areas, but excluding the Family Zone bike track, designated demo ride zones, and the raceway track.

    c. **"Event Grounds"** means the entirety of the Sea Otter Classic venue at WeatherTech Raceway Laguna Seca and all adjacent areas under Life Time's operational control during the event.

    d. **"Electric Motorcycle"** means any two- or three-wheeled motor vehicle propelled by an electric motor that does not meet the definition of a "BICYCLE" under California Vehicle Code § 312.5, including without limitation any electric-powered motorcycle, moped, motorized bicycle (as defined in Cal. Veh. Code § 406), motor-driven cycle, or similar electrically powered vehicle that exceeds 750 watts of motor power, is capable of speeds exceeding 28 mph, or does not have fully operable pedals. **Electric motorcycles are strictly prohibited on the Event Grounds at all times.**

2. **Prohibited Vehicles.** The following vehicles are **strictly prohibited** on the Event Grounds at all times and under all circumstances: (i) electric motorcycles (as defined above); and (ii) any electric-powered vehicle that does not meet the definition of a BICYCLE under California Vehicle Code § 312.5. Any person who brings a prohibited vehicle onto the Event Grounds is subject to immediate removal of the vehicle and ejection from the event. This prohibition applies to all areas of the Event Grounds, including but not limited to the raceway track, demo ride zones, the Family Zone, the Expo Area, and all trails and paths.
3. **Permitted BICYCLE Use.**
    a. **Track and Demo Ride Zones.** BICYCLEs are permitted on the raceway track and in designated demo ride zones during scheduled open-ride and demo sessions.
    b. **Family Zone Bike Track.** BICYCLEs are permitted in the Family Zone bike track; Class 2 BICYCLEs are prohibited.
    c. **Expo Area.** All BICYCLE riding is **prohibited** in the Expo Area. Attendees may walk BICYCLEs through the Expo Area with the motor disengaged.
    d. **Natural-Surface Trails.** Where natural-surface trails are accessible from the Event Grounds, only Class 1 BICYCLEs are permitted, subject to a 10 mph speed limit and any additional restrictions posted at trailheads. Under Monterey County Code § 14.12.060, BICYCLE riders on county park trails must yield to both pedestrians, and may not pass another trail user at a

speed greater than 5 mph. Helmets certified by ANSI or SNELL are required on all dirt trails within Monterey County parks.

4. **Speed Limits.** All BICYCLE riders must obey posted speed limit signs at all times. Unless otherwise posted, the following speed limits apply: (i) **20 mph** on the raceway track and paved areas; (ii) **10 mph** on natural-surface trails; and (iii) **5 mph** in all pedestrian-heavy zones, including areas adjacent to (but not within) the Expo Area. For the avoidance of doubt, no speed limit established in this Section authorizes BICYCLE riding in any area where riding is otherwise prohibited under this Policy, including the Expo Area (see Section 3(c)). Life Time reserves the right to modify speed limits at any time based on conditions.

5. **Safety Requirements.**

    a. **Helmets.** All BICYCLE riders under the age of 18 must wear a properly fitted and fastened bicycle helmet that meets the standards of the American Society for Testing and Materials (ASTM) or the United States Consumer Product Safety Commission (CPSC) at all times while riding anywhere on the Event Grounds.

    b. **Yield to Pedestrians.** BICYCLE riders must yield the right-of-way to all pedestrians at all times. Riders must reduce speed and exercise heightened caution in areas with heavy pedestrian traffic.

    c. **Minors.** Riders under the age of 16 must be accompanied by a parent or legal guardian while operating a BICYCLE on the Event Grounds.

    d. **Equipment Standards.** All BICYCLEs operated on the Event Grounds must be in safe working condition and comply with California Vehicle Code § 21201 and § 24016, including: (i) functional brakes capable of making one braked wheel skid on dry, level, clean pavement; (ii) a motor that does not exceed 750 watts and that disengages or ceases to function when the brakes are applied; (iii) during darkness, (a) a rear red reflector or solid or flashing red light visible from 500 feet during dark hours and (b) a front white lamp visible from 300 feet and pedal, shoe, or ankle reflectors visible from 200 feet.

    e. **Tampering and Modifications Prohibited.** No person shall operate on the Event Grounds a BICYCLE that has been tampered with or modified to change its speed capability, unless the BICYCLE continues to meet the statutory definition of a BICYCLE under California Vehicle Code § 312.5. BICYCLEs that have been modified to exceed 20 mph on motor power alone, to exceed 750 watts, or that have had operable pedals removed are not BICYCLEs under California law and are strictly prohibited on the Event Grounds.

6. **Exhibitor Responsibilities.** Exhibitors offering BICYCLE demos must: (i) provide each demo rider with a separate written waiver and release of liability prior to the demo ride; (ii) ensure all demo riders wear helmets; (iii) brief demo riders on applicable speed limits, permitted riding areas, and this Policy; and (iv) ensure that all demo BICYCLEs are in safe working condition and comply with the classification standards set forth in this Policy. Exhibitors may not demo for test rides any electric motorcycles. Exhibitors are solely responsible for any claims arising from their demo operations.

7. **Compliance with Applicable Law.** All attendees operating BICYCLEs on the Event Grounds acknowledge and agree that they will comply with all applicable California state and local laws, regulations, and ordinances governing BICYCLE use, including without limitation the California Vehicle Code provisions applicable to BICYCLEs. This Policy supplements, and does not replace, any applicable legal requirements. In the event of a conflict between this Policy and applicable law, the more restrictive provision shall control.

8. **Assumption of Risk and Limitation of Liability.** BICYCLE riding is an inherently hazardous activity. By operating a BICYCLE on the Event Grounds, each rider voluntarily assumes all risks of injury, death, or property damage arising from or related to BICYCLE use, including risks arising from the actions of other riders, pedestrians, uneven terrain, weather conditions, or equipment malfunction. To the fullest extent permitted by law, Life Time, Inc., its affiliates, officers, directors, employees, agents, volunteers, sponsors, and event partners (collectively, "Released Parties") shall not be liable for any injury, death, or property damage arising from or related to BICYCLE use on the Event Grounds, whether caused by the negligence of the Released Parties or otherwise. For the avoidance of doubt, the operation of a Class 3 BICYCLE or electric motorcycle on the Event Grounds is a violation of this Policy and does not create any duty of care on the part of the Released Parties toward the operator of such prohibited vehicle.

9. **Enforcement.** Life Time reserves the right, in its sole discretion, to enforce this Policy by any lawful means, including verbal warnings, confiscation of event credentials, removal of BICYCLEs or electric motorcycles from the Event Grounds, and/or ejection of the rider from the event without refund or compensation. Any person found operating a Class 3 BICYCLE or electric motorcycle on the Event Grounds is subject to immediate vehicle removal and ejection without prior warning. Life Time event staff, volunteers, and designated safety personnel are authorized to enforce this Policy. Failure by Life Time to enforce any provision of this Policy in a particular instance shall not constitute a waiver of Life Time's right to enforce that provision in the future.

10. **Modifications.** Life Time reserves the right to modify this Policy at any time, with or without prior notice. Updated versions of this Policy will be posted on the Sea Otter Classic website and on signage at the Event Grounds. Continued BICYCLE use on the Event Grounds following any modification constitutes acceptance of the revised Policy.

NOTICE: BY ENTERING THE SEA OTTER CLASSIC EVENT GROUNDS WITH AN BICYCLE OR ELECTRIC MOTORCYCLE, YOU ACKNOWLEDGE THAT YOU HAVE READ, UNDERSTOOD, AND AGREE TO COMPLY WITH THIS POLICY AND ALL APPLICABLE CALIFORNIA STATE AND LOCAL LAWS GOVERNING BICYCLE AND ELECTRIC VEHICLE USE. CLASS 3 BICYCLES AND ELECTRIC MOTORCYCLES ARE STRICTLY PROHIBITED ON THE EVENT GROUNDS. YOU VOLUNTARILY ASSUME ALL RISKS ASSOCIATED WITH BICYCLE USE AT THIS EVENT.
